

## Pipeline Intelligent Pipe Prefabrication Pipe Production Line High Performance

### Basic Information

- Place of Origin: China
- Brand Name: HUAHENG
- Minimum Order Quantity: Custom
- Delivery Time: 30 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

### Product Specification

- Highlight: **Intelligent Pipe Production Line, Intelligent Pipe Prefabrication, high performance Pipe Production Line**

## Product Description

### Pipeline Intelligent Prefabrication Production Line

The intelligent prefabrication production line of a factory in Dalian is a pipeline prefabrication production line with an international advanced level. These include the ECS control system, automatic logistics system, automatic length measuring system, automatic cutting system, and groove processing system independently developed by Huaheng. The main advantages of a high degree of intelligence are as follows:

1. Taking "machines instead of humans" as the core concept
2. Operators replace high-skilled workers, greatly reducing the number of workers, reducing operating skills and labor intensity,
3. Significantly increase welding productivity and improve welding quality
