

## 500~5000kg Load Pallet Chain Conveyor Pallet Handling Conveyors 0.75KW

### Our Product Introduction

#### Basic Information

- Place of Origin: China
- Brand Name: HUAHENG
- Minimum Order Quantity: 1
- Delivery Time: 30 work days
- Payment Terms: L/C, D/A, D/P, T/T, Western Union, MoneyGram

#### Product Specification

- Highlight: Pallet Handling Conveyors 0.75KW,  
5000kg Load Pallet Chain Conveyor,  
0.75KW chain driven pallet conveyor

## Product Description

### Description

Pallet conveyor is a conveyor that uses chain traction and load, or uses flat noodles, metal mesh belt and roller bed installed on the chain to carry materials. It can be divided into chain type, chain plate type, chain net type and flat noodles type. It is often combined with other conveyors and lifting devices to form a production line with various functions.

|                           |                   |
|---------------------------|-------------------|
| Rated load                | 500~5000kg        |
| Conveying length          | 2000~3000mm       |
| Height of conveying table | 0~800mm           |
| Pallet conveying width    | 800~1200mm        |
| Conveying speed           | 0~18m/min         |
| Rack material             | carbon steel      |
| Power supply              | 0.75KW            |
| Motor brand               | Domestic/Imported |
