Product Description

Medium fiber laser cutting machine

The Fiber Laser series of high-performance fiber laser cutting machines are developed by Huaheng cutting systems Co., Ltd with the latest technology. They use the internationally advanced fiber lasers with up to 30%'s conversion efficiency and very low maintenance and operating costs as well. Integrated with fine performance control systems and high-precision mechanical structure, they can finely cut sheets or profile of different thickness and metals, such as steels, copper and aluminum. They are popular by excellent characteristics of high reliability, high cutting accuracy and cost-effective.

Model		Fiber Laser 3015M	Fiber Laser 6015M
Effective cutting range(mm)	X axis	1500	1500
	Y axis	3000	6000
	Z axis	100	100
Rapid speed	X axis	60000mm/min	
	Y axis	60000mm/min	
	X-Y comprehensive	84000mm/min	
	Z axis	30000mm/min	
Acceleration		0.6G	
Position accuracy		±0.02mm/3000mm	
Max. cutting thickness		Depends on the laser power and cutting materials
