

Durable CNC Cutting System Procut CNC Bevel With Two-Axis Head

Basic Information

Product Specification

- Highlight: **CNC Cutting System Procut bevel, Two-Axis Head CNC Bevel**

Product Description

Procut bevel

Procut Bevel adopts imported two-axis bevel head, and the whole machine realizes five-axis linkage. The rotary head has zero clearance elimination device and anti-collision function, and the horizontal working rotation angle is $\pm 50^\circ$. V, y, l and other groove cutting can be processed smoothly.

Axis	A(Head Axis)	B(Torch Axis)
Working Position	Horizontal	
Tilting Head	$\pm 90^\circ$ max	$\pm 90^\circ$ max
	$\pm 50^\circ$ work	$\pm 50^\circ$ work
Axis Speed	40rpm	29rpm
Axis Rated Torque	124Nm	144Nm
Motor and Drive	Panasonic	
	5000rpm max	6000rpm max
Anti-shock System	Magnetic	
Torch installation	Torch Clamp
