

## Small Potable Tungsten Wire Grinding Machine (WMJ04)

### Basic Information

### Product Specification

- Highlight: Potable Tungsten Wire Grinding Machine, Small Tungsten Wire Grinding Machine

## Product Description

### Description

Portable one-piece tungsten electrode cutting and pin grinding equipment; it can grind tungsten electrodes of different diameters and angles, with simple operation and wide application range.  
Small and light,easy to carry,especially suitable for the installation industry;  
Standard lithium battery,rechargeable for repeated use;  
The speed is stable and has the function of tungsten cut-off.

### Technical parameter

Grindable tungsten electrode diameter(mm)	1.6, 2.4, 3.2
Grindable tungsten angle(°)	15-60
Charging stand using voltage(V)	Comminicate 220
Dimensions(mm)	50X50X240
Weight (kg)	1.8kg
