Basic Information

Product Specification

- Highlight: Double Axis Rotating Welding Positioner,
Double Axis Table Top Welding Positioner,
Efficient Rotating Welding Positioner

Product Description

Double Axis Positioner

Description

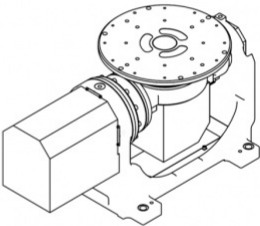

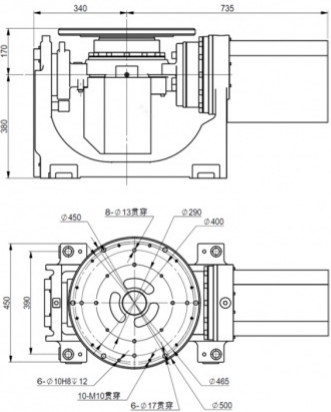

The positioner series tooling can be used for various automatic welding or manual welding to realize pipe butt joint, pipe end face welding and various welding forms such as shafts, discs, and cylinders. It has compact structure, beautiful appearance and light weight. Convenient operation and other advantages, it is an ideal welding auxiliary equipment for pressure vessels, metallurgy, electric power, chemical machinery, metal structures and other industries.

Technical parameter

Project		
Number of positioner axes		
Range of motion	Flip axis	
	Rotary axis	
Maximum action speed	Flip axis	
	Rotary axis	
Maximum load		
Work surface size		
Maximum center of gravity		
Start, Stop Allowable torque	Flip axis	
	Rotary axis
