

High Performance Heavy Fiber Laser Cutting Machine 3015H 4020H 6020H

Basic Information

Product Specification

- Acceleration: 1.0-1.5G
- Position Accuracy: $\pm 0.01\text{mm}/6000\text{mm}$
- Max.cutting Thickness: Depends On The Laser Power And Cutting Materials
- Highlight: **Fiber Laser Cutting Machine 3015H, High Performance Fiber Laser Cutting Machine, 4020H fiber laser cutter**

Product Description

Description

The Fiber Laser series of high-performance fiber laser cutting machines are developed by Huaheng cutting systems Co., Ltd with the latest technology. They use the internationally advanced fiber lasers with up to 30%'s conversion efficiency and very low maintenance and operating costs as well. Integrated with fine performance control systems and high-precision mechanical structure, they can finely cut sheets or profile of different thickness and metals, such as steels, copper and aluminum. They are popular by excellent characteristics of high reliability, high cutting accuracy and cost-effective.

Technical parameter

Model		FiberLaser 3015H	FiberLaser 4020H	FiberLaser 6020H
Effective cutting range (mm)	X axis	1500	2000	2000
	Y axis	3000	4000	6000
	Z axis	300	300	300
Max.running speed	X axis	75000mm/min (optional86000/100000mm/min)		
	Y axis	75000mm/min (optional86000/100000mm/min)		
	X-Y comprehensive	100000mm/min (optional120000mm/140000mm/min)		
	Z axis	30000mm/min
