

## CUT-100/101 Inverter Air Plasma Cutting Machine 330V~500V High Reliability

Our Product Introduction

for more products please visit us on huahengautomation.com

### Basic Information

- Model Number: CUT100

### Product Specification

- Highlight: high reliability air inverter plasma cutter, Inverter Air Plasma Cutting Machine 330V, Inverter Air Plasma Cutting Machine 500V

### More Images

### Product Description

CUT-100/101 Inverter Air Plasma Cutting Machine

#### Description

Original German Infineon IGBT module with high reliability  
 Maximum cutting thickness 50mm  
 330V~500V full range voltage available, suitable for various panel cutting environments  
 Patented intelligent over-voltage, under-voltage and phase loss protection  
 It can cut sheets under 40mm with high quality!  
 100% duty cycle, which can be used in industrial places for a long time  
 Cutting materials: carbon steel, stainless steel, aluminium, copper

Mass cutting thickness	Carbon steel-25, stainless steel<20
Power factor	0.76
Protection grade	IP21S
Insulation class	H
Weight	30.5kg

Our Product Introduction

for more products please visit us on [huahengautomation.com](http://huahengautomation.com)

Frequency	50/60Hz		
Cooling mode	Air cooling		
Size	660*240*445mm		
<b>Performance</b>			
Serial number	Product name	Model	Material number
1	Manual cutting torch	TP-100/6M	13001000194
2	Manual cutting torch	TP-101/6M	13001000218
3	Manual cutting torch	TP-101/10M	13001000217
