Our Product Introduction

Product Description

Shutter Lifting Conveyor

Description

The Shuttle Lift Conveyor is also known as Lift, Elevator, which is a kind of up-down reciprocating conveyor equipment. It is driven up and down by a variable frequencyconverter motor through chain.The cargo platform equipped with a transmission mechanism for the convenience of transporting goods to the cargo platform automatically.

Technical parameter

Frame width	2012~2612mm
Pallet conveying width	800~1200mm
Lifting conveyor length	1718~3000mm
Material height	0~2000m
Lifting height	0~15000mm
Bottom conveying height	50~1300mm
Remark	Can be customized according to customer's requirement
