

Single Column Gripper ASRS Stacker Crane System 0~50kg Rated Rayload

Basic Information

Product Specification

- Highlight: Single Column ASRS Stacker Crane, 50kg Rayload ASRS Stacker Crane, 50kg Rayload stacker crane system

Product Description

Technical parameter

The stacker crane is the main machine in a complete set of equipment in a three-dimensional warehouse, used in conjunction with high-rise shelves, entrance and exit platforms, and entry and exit systems. It is a lifting machinery that moves on guide rails. It can walk, lift, retract on both sides in three-dimensional space, and repeatedly move in a certain order to complete the entry and exit handling operations of container units or selected goods.
