

High Density Gyration Vertical Lift Module Storage System Multiple Link

Our Product Introduction

for more products please visit us on huahengautomation.com

Basic Information

Product Specification

- Tray Type: Normal Tray F-Multi-layer Tray C-Drawer Tray D-Customized Tray
- QTY: Customized QTY Default-10pcs.
- S: S:Stand-alone
- M: Multiple-link
- Traysize: 2050*370 2420*305 2420*504 Mm
- Tray Type: C:Drawer D:Customised Tray F:Multilayer
- Note: The Height Increases According To The Number Of Tray Increases
- Highlight: **High Density vertical lift module storage system , vertical lift storage systems Multiple Link , Multiple Link vertical storage lift**

Product Description

Chambers system can adjust the lift speed according to the weight and height of the goods, low-speed and smooth operation when full load; high-speed operation when no load, and ensure the stability of the system, increase the service life of the equipment, but also make the efficiency to reach the highest.

To 7 metres high money cabinet, for example, lifting speed of up to 0.8m / s, the average pick-up time in 20 seconds, a day (calculated in 8 hours), can be completed access to the goods 1,000 times, much higher than any other form of warehousing.
