

Customized Robotic Tube Grinding Machine For Flanges Tees Pipe Fittings

Our Product Introduction

for more products please visit us on huahengautomation.com

Basic Information

Product Specification

- Suitable Pipe Diameter: Customized
- Suitable Material: Carbon Steel, Stainless Steel Etc
- Suitable Pipe Fitting Form: Tee/Flange Etc.
- Equipment Grinding Width: $\leq 25\text{mm}$
- Highlight: pipe fittings tube grinder machine ,
pipe fittings tube Grinding machine ,
Customized tube grinder machine

Product Description

robotic Tube Grinding Machine

Mainly used for internal and external wall polishing of flanges, tees and other pipe fittings. It can achieve automatic positioning, locating and polishing of pipe fittings. It can remove impurities on the internal and external surfaces of pipe fittings within 25mm from the edge affected by groove welding.
