

QF025 Flattening Machine For Heat Exchanger Tubes

Our Product Introduction

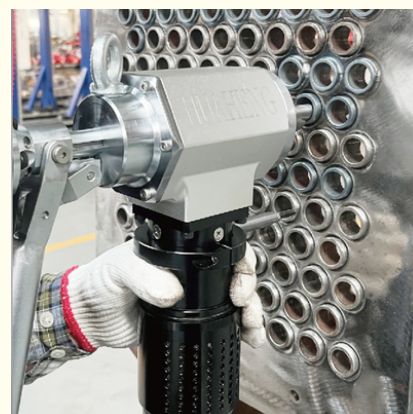

for more products please visit us on huahengautomation.com

Basic Information

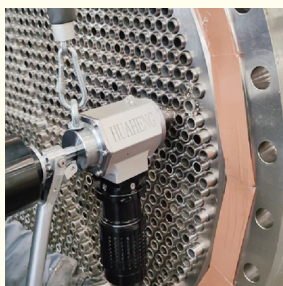

Product Specification

- OD Range: $\Phi 15\text{-}\Phi 38\text{mm}$
- Tube Wall Thickness: $\leq 3.5\text{mm}$
- No-load Speed: 300rpm
- Power: 1.1KW
- Tube Material: Carbon Steel, Stainless Steel, Titanium, Etc.
- Weight: 8kg
- Highlight: **QF025 Flattening Machine, Heat Exchanger Tubes Flattening Machine**

Product Description

The unevenness of the tube mouth in the tubesheet welding will affect the welding quality and product appearance, this product can be replaced by changing the knife holder and the head to achieve the function of the tube mouth levelling, fast chamfering, removing the weld and bevelling of the tube enclosure, fast, efficient, labour-saving, and can be a good solution to the problem of the unevenness of the tube mouth.

Translated with DeepL.com (free version)

Torque	50NM
Tube	Outer diameter $\Phi 16\text{mm}$ Inner diameter $\Phi 12\text{mm}$
Air consumption	$0.7\text{m}^3/\text{min}$
Feed stroke	25mm
