Product Description

To provide a total solution for pharmaceutical production and logistics, realising the entire pallet storage, outbound, destacking and bulk storage, outbound, disassembly, picking, inspection, packaging and sorting of products and other operations.

Simultaneous operation of multi-storey business scenarios, from order initiation to arrival at the sortation gate, the whole process is highly efficient with no offline process. Product and carton information is tracked and traced online throughout the process to ensure picking is accurate and error-free.
