

## HDV320-T Desktop Argon Arc Automatic Welding Center

### Basic Information

### Product Specification

- Suitable Pipe Diameter:  $\Phi 21.3$ - $\Phi 323.8$ mm ( $\Phi 21.3$ - $\Phi 114.3$ mm Can Be Clamped Through The Head Frame)
- Suitable Material: Carbon Steel, Alloy Steel, Stainless Steel
- Suitable Wall Thickness: Meet The Welding Of Wall Thickness Within The Range Of SCH160
- Workpiece Length:  $< \Phi 114.3$ mm, Customized ;  $> \Phi 114.3$ mm, Length  $< 4000$ mm
- Driving: Servo Motor+RV Precision Reducer
- Highlight: **desktop welding center , argon arc welding center , automatic welding center**

## Product Description

With the function of TIG automatic bottoming + filling + cover welding, it can meet the argon arc automatic welding of different wall thickness, material and pipe diameter
