

## Pallet Type Single Motor Double Extension Telescopic Fork

### Basic Information

- Model Number: HFTB200\*65\*160

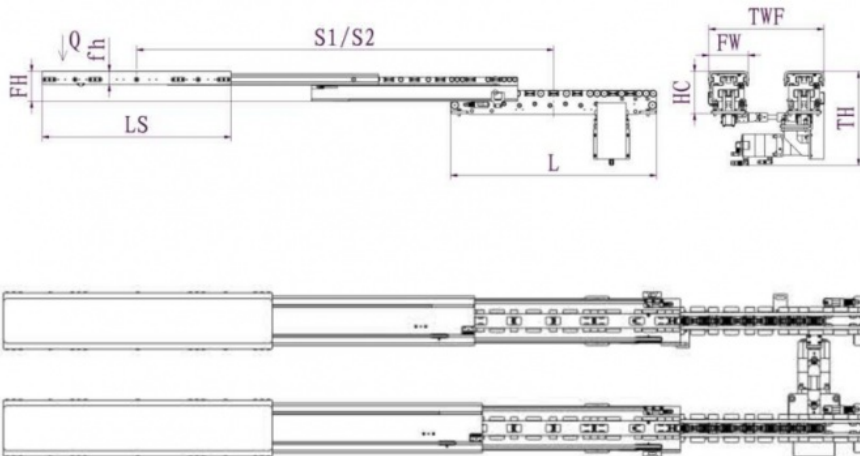

### Product Specification

- FH Fork Thickness(mm): 65/160
- LS Upper Fork Length(mm): 1000-1500
- L Fork Length(mm): 1200-1600
- S1 Maximum Stroke (safety 1700+30/3300+30 Stroke)mm:
- TH Fork Total Height(mm): 750
- HF Installation Height(mm): 246
- FW Fork Width(mm): 670
- Q Load(kg): 1500
- Load Disturbance (mm)±10%: 16/17
- No-load Disturbance (mm)±10%: ≤5
- Highlight: **single motor telescopic fork, single motor extendable forks**

### Product Description

The HFTB200 × 65 × 160 series is a commonly used single-motor double deep fork. This series of forks are mostly used for automated three-dimensional warehouse storage of 1000mm-1400mm size standard tray.
