Basic Information

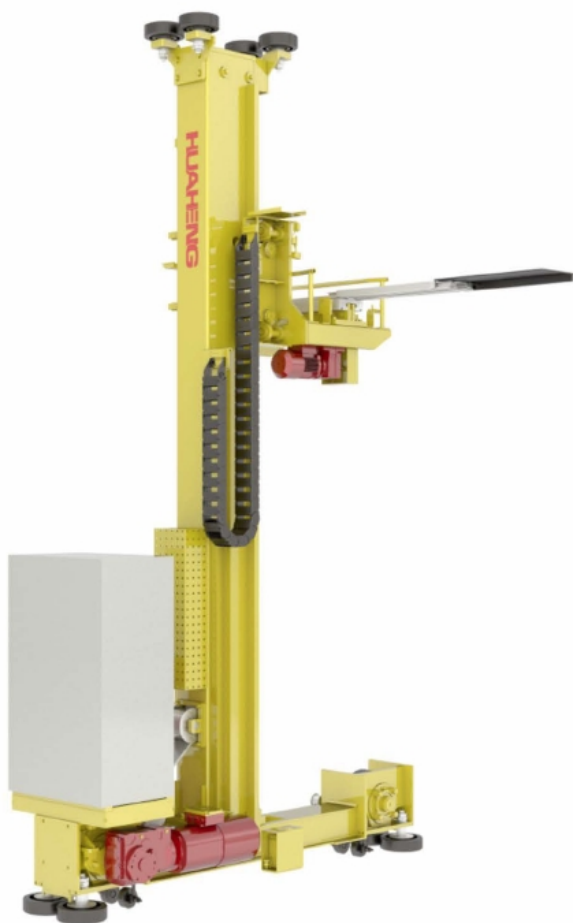

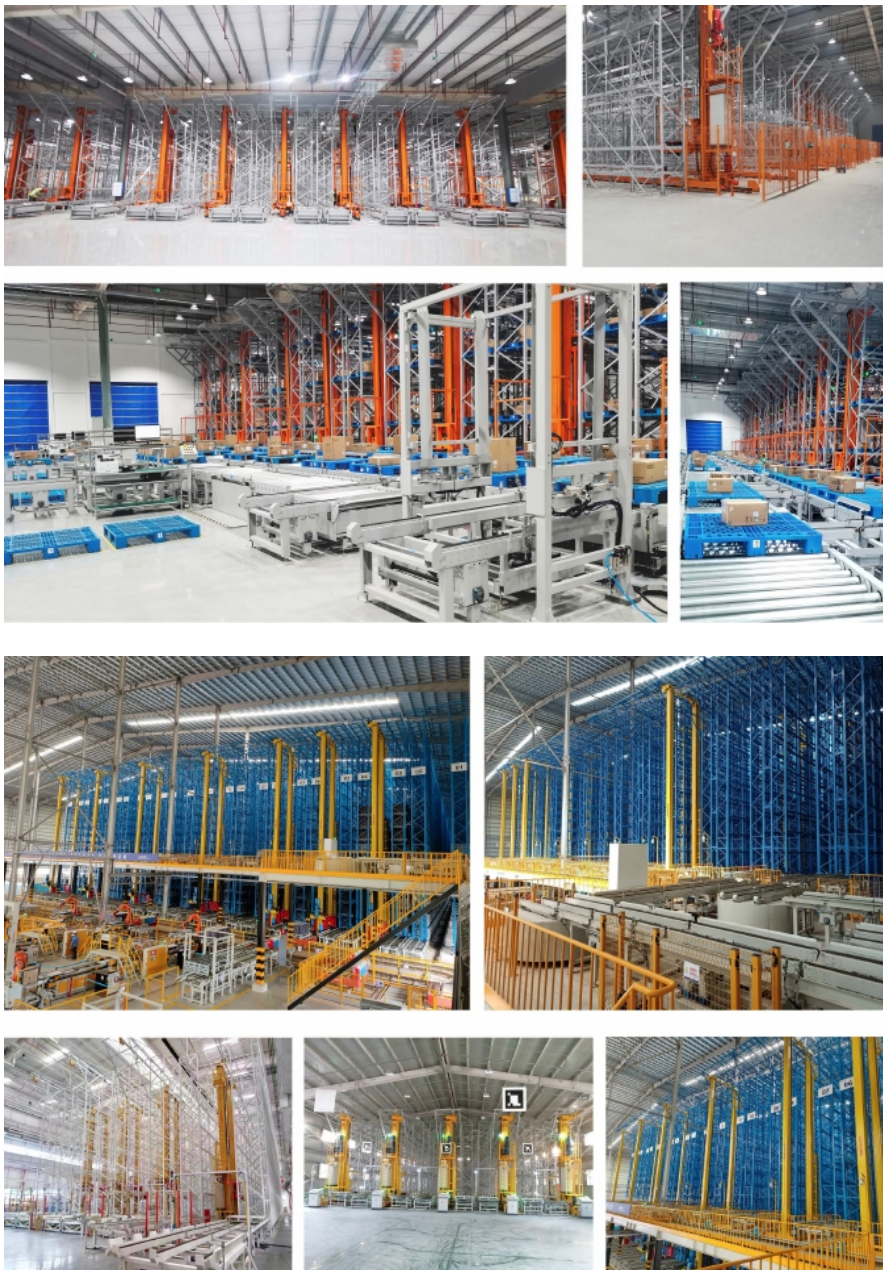

Product Specification

- Model: CSHH-WS-G100-L600*W400
- Running Speed: 0~360m/min
- Lifting Speed: 0~120m/min
- Platform Form: Single/double Extension Position, Single/double Station, Plate Fork, Clamp Fork Model
- Overall Height: $\leq 8\text{m}$
- Rated Load: 0~100kg
- Material: Aluminum Alloy/steel Columns
- Lifting Method: Steel Wire Rope, Chain, Synchronous Belt
- Motion Positioning Accuracy: $\pm 5\text{mm}$
- Lifting Positioning Accuracy: $\pm 3\text{mm}$
- Fork Positioning Accuracy: $\pm 2\text{mm}$
- Working Mode: Manual/single Machine Automatic/online

Product Description

The stacker crane is the main machine in a complete set of equipment in a three-dimensional warehouse, used in conjunction with high-bay racking, inbound/outbound platforms and inbound/outbound systems. It is a lifting machine that moves on guide rails. It can walk, lift, retract on both sides in a three-dimensional space and move repeatedly in a specific order to complete the inbound and outbound handling of container units or selected goods.
