

Heavy Duty Single-Deep Telescopic Fork used For 5000kg-10000kg

Basic Information

- Brand Name: HUAHENG
- Model Number: HFTC300x160-H-SM-2Z

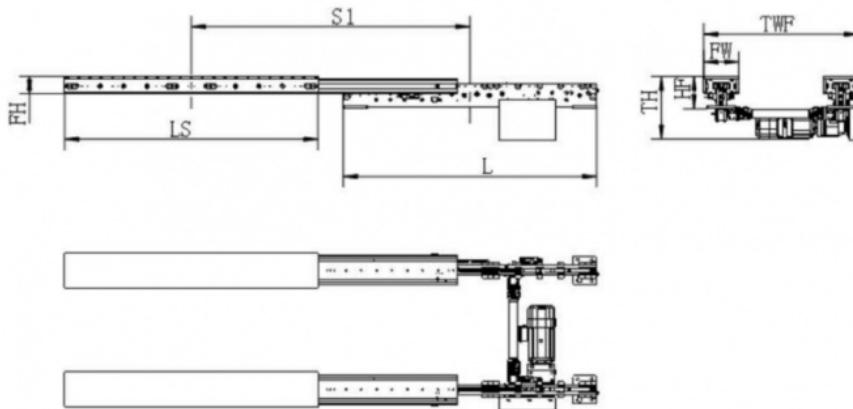

Product Specification

- FH Fork Thickness (mm): 160
- LS Upper Fork Length (mm): 1500-3200
- L Fork Length(mm): 1500-3200
- S1 Maximum Stroke (safety Stroke)mm: 1650+30/3350+30
- TH Fork Total Height (mm): 520
- HF Installation Height (mm):275
- FW Fork Width (mm): 300
- Q Load (kg): 1000kg
- Load Disturbance (mm)±10%: 9-24
- No-load Disturbance (mm)±10%: ≤3
- Highlight: **Single Deep Telescopic Fork, Heavy Duty Telescopic Fork**

Product Description

The HFTC300 x160 series is a heavy-duty single deep fork, which is mostly used for 5000kg-10000kg. It requires a larger itinerary and smaller deflection. It is widely used in the fields of heavy mechanical components and large plates. It can be used by multi-fork linkage for large-scale machinery and large plates.
