

Desktop Tungsten Wire Grinder For Cutting And Cone Grinding

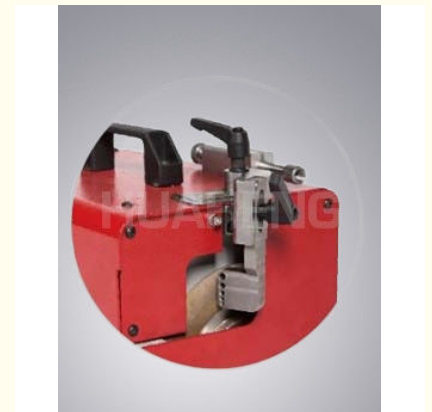

Basic Information

- Brand Name: HUAHENG
- Model Number: WMJ06

Product Specification

- Grinding Angle: 20°~60°
- Grinding Length: >30mm
- Power: 250w
- No-load Speed: 2800rpm
- Input Power: 220V Single Phase
- Weight: 12kg
- Highlight: Desktop Tungsten Wire Grinder,
250w Tungsten Wire Grinder

Product Description

This equipment is designed for professional integrated cutting and pin grinding of tungsten electrodes. It is capable of grinding electrodes with various diameters and angles, and features a fixed-length cutting function. The operation is straightforward, making it suitable for a wide range of applications. It boasts a modern design with a simple structure, easy operation, and includes both length cutting and cone grinding functions. The lengths of the tungsten electrodes and the grinding angles are marked with scales for easy reference.

Technical parameter

Grindable tungsten electrode diameter	Standard(1.0 1.6 2.4 3.2 4.0) Matching(2.4 3.2 4.0 5.0)
Grinding angle	20°~60°
Grinding length	>30mm
Motor Power(w)	250
No-load speed (r/min)	2800
Input power(V)	220
Weight(KG)	12
