

## Huaheng Robot Intelligent Tube Expansion & End-Facing System

### Basic Information

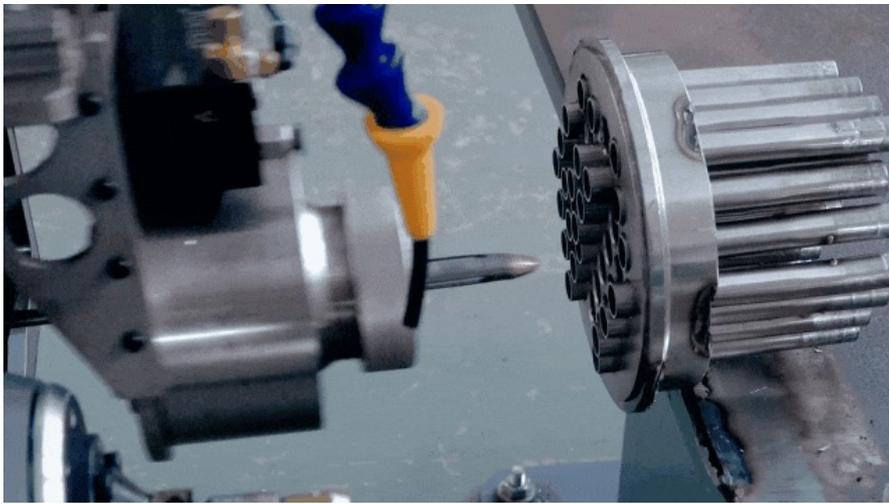

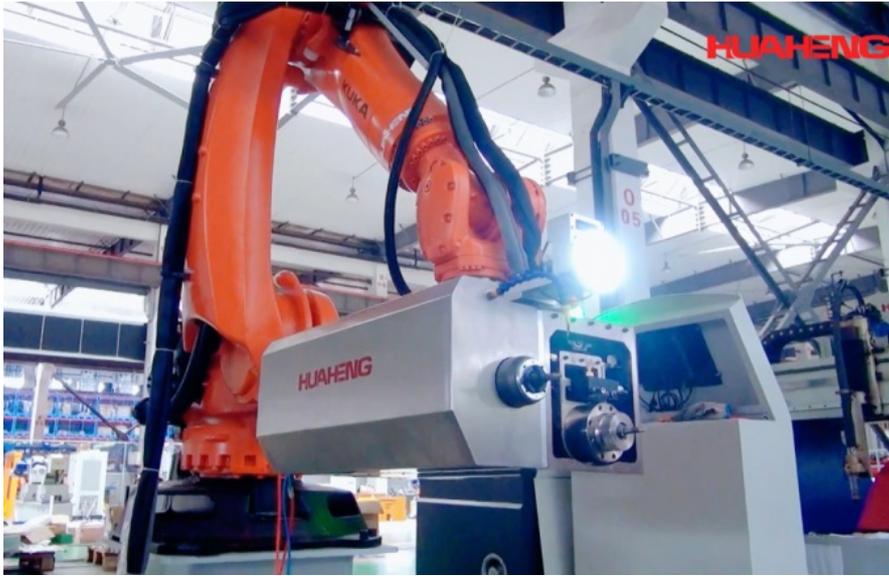

### Product Specification

- Function: Tube Expanding & End Facing
- Product Features: Built-in Camera Vision And Measurement System
- Applicable Scenarios: Automated Manufacturing
- Highlight: **Intelligent Tube Expansion System, Robot Tube Expansion System**

## Product Description

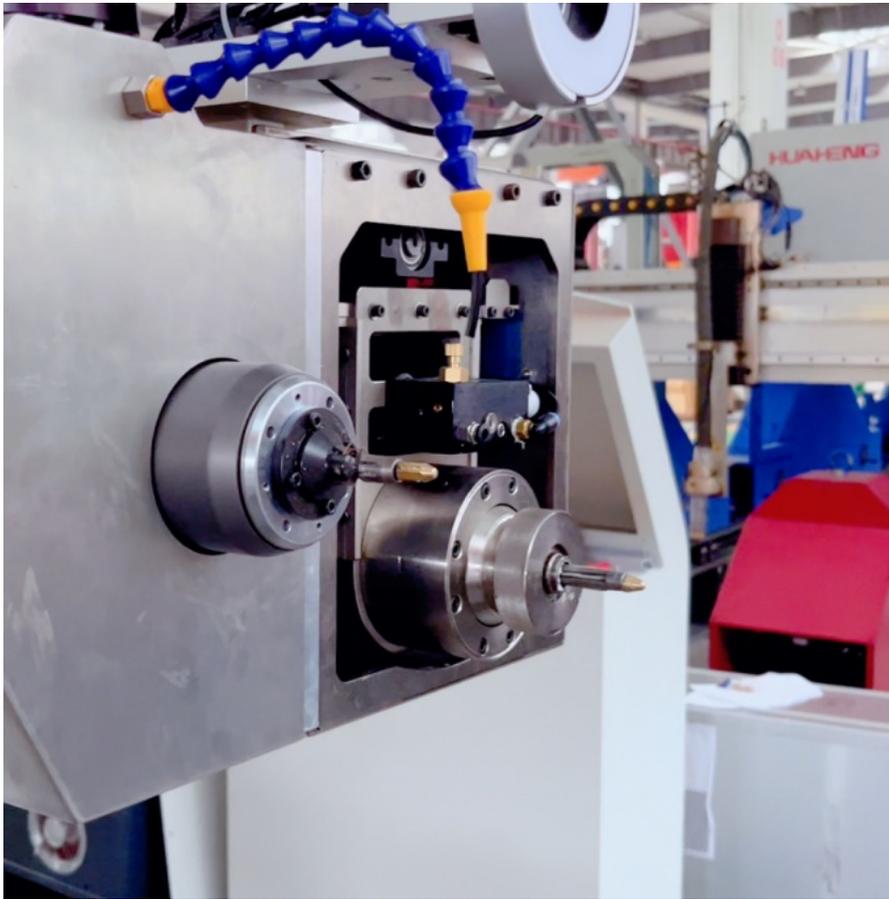

Our Product Introduction

The Huaheng Robot Intelligent Tube Expansion & End-Facing Equipment is equipped with a camera vision and measurement system, enabling the visualization of tube expansion and end-facing processes.

It is an intelligent integrated machine for tube expansion and end-facing, serving two functions with one machine. Customized equipment can be provided according to users' needs.
